## EXPERIENCE

Product Designer @  
Intersect (2018-2021)

As a member of the product design team at Intersect I worked mostly on large enterprise builds in the banking, real estate and insurance spaces.

Senior Designer @  
The Hanen Centre (2012-2018)

I managed the design process and design team on most projects at Hanen. That included graphic design, digital design, UX design and front-end development.

Web Designer @  
Pinnacle Communications (2007-2012)

I was part of the design and front-end team working on client projects. We specialized in eCommerce but worked on a variety of projects within many industries. I was responsible for layout, branding, and front-end development.

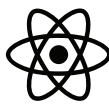

## SKILLSET

NODE

SaSS/CSS

REACT

VUE

JAVASCRIPT

HTML/CSS/JS, Mongo, Postgres, Node, React, Vue, SaSS, Grunt, Express, Lambda, Wordpress, Craft, Shopify

## EDUCATION

Brainstation (2018)

Intensive 10 week full stack development program. We focused on Javascript, Node, React, and PostgreSQL.

Digital Media Arts @  
Seneca College of Applied Arts (2005-2007)

Multi-faceted program that explored visual/digital design, motion design, development, video and user experience design.

## PHILOSOPHY

I believe in a user-centred design and development approach. Where user-testing and constant iteration is at the heart of the process. This process, along with a dose of good taste & style, makes for great experiences.
